
Overview NewsLetter (July 16 2008)

NewsLetter 01 - New Quartzes for Infrared Remote Control Unit and RCS Plus Air Sampler

NewsLetter 02 - Improved Motors for RCS Plus Air Sampler

NewsLetter 03 - Improved Access to Calibration Spindle Switch of RCS Plus Air Samplers

NewsLetter 04 - Distribution of Colonies on the Agar Strip of the RCS Plus Air Samplers

NewsLetter 05 - Improved Rotors for RCS Plus Air Sampler

NewsLetter 06 - Self-Discharge of Nickel-Cadmium Battery Pack of RCS Plus Air Samplers

NewsLetter 07 - Improvement in the operational safety of the RCS Plus Air Sampler

NewsLetter 08 - Influence of the Air Flow Velocity on the Precipitation Rate of RCS Plus

NewsLetter 09 - Improved motor bearings for the RCS Plus

NewsLetter 10 – VDE/GS Approval for the RCS Plus

NewsLetter 11 - Certificate for Calibration of the Biotest Anemometer by PTB

NewsLetter 12 - Gamma-Irradiated Agar Strips TC- γ

1996

NewsLetter 13 - Improvement for easy handling of the Anemometer for RCS Plus

NewsLetter 14 - Improvement of the Air Sampler RCS Plus

NewsLetter 15 – New: Air Sampler RCS Plus Ex

NewsLetter 16 - Quality Management System Biotest HYCON

NewsLetter 17 - Improved Version of RCS Air Sampler in 1997

NewsLetter 18 - New label on Contact Slides

1997

NewsLetter 19 - Bioefficiency of RCS Plus

1998

NewsLetter 20 - Influence of Temperature Stress and Desiccation on Growth Promotion of Agar Strips
TC and TC- γ

NewsLetter 21 - New Agar Strips TSM for Total Count Measurement

NewsLetter 22 - Comparison of Sampling Efficiency between RCS Plus and RCS High Flow

NewsLetter 23 - Influence of High Sampling Volumes on Colony Yields for the Air Sampler
RCS High Flow

NewsLetter 24 - Comparison of the bioefficiency between RCS Plus and RCS High Flow

1999

NewsLetter 25 - Improved labelling of Biotest Agar Stripes

NewsLetter 26 - Extended Storage Temperature for Biotest Contact Slides

NewsLetter 27 - New Agar Strips SDX and DG-18 for determination of airborne Yeasts and Moulds

NewsLetter 28 - New RCS Battery Discharger for NiCd rechargeable battery packs

NewsLetter 29 - Biotest Anemometer with extended Measurements Range

NewsLetter 30 - New Quality Control Test Strains for Biotest Agar Media

2002

NewsLetter 31 - New Agar Media for the Isolator (Bacteria)

NewsLetter 32 - New Agar Media for Cleanrooms (Yeasts and Moulds)

NewsLetter 33 - Shelf-life newer media

NewsLetter 34 - Air Surface Monitoring in Isolators

NewsLetter 35 - CalibSo Calibration Software

2003

NewsLetter 36 - RCS Isolator Air Sampler

NewsLetter 37 - RCS Air Sampler gives higher recovery of microorganisms than SAS Super 90

NewsLetter 38 - Air- and Surface Monitoring in Isolators

NewsLetter 39 - Validation Handbook

NewsLetter 40 - Comparison of 5 Air Samplers

NewsLetter 41 - Comparison of Different Air Samplers and Different Methods for Fungal Counts

NewsLetter 42 - Accessories for RCS Isolator

NewsLetter 43 - CalibSo 3.2 High Flow 2

2004

NewsLetter 44 - Validation of the Biotest Air Sampler RCS Isolator

NewsLetter 45 - Changing of primary packaging material for RCS Agar Strips

NewsLetter 46 - USP 26 (Important Clarification)

NewsLetter 47 - Additives for Microbiological Media and Details for Test Procedures

NewsLetter 48 - RCS Isolator Air Sampler for Production

NewsLetter 49 - Qualification handbook

NewsLetter 50 - Resistance of Agar Strips in PET foil against Hydrogenperoxide

NewsLetter 51 - Validation of Calibration of RCS High Flow

NewsLetter 52 - Improved Certificates of Analysis

NewsLetter 53 - Handling Procedure of PET foil Agar Strips

NewsLetter 54 - Validation Handbook Update 04-05

2005

NewsLetter 55 - RCS Plus - RCS Plus Ex Air Sampler

NewsLetter 56 - Validation of γ -irradiation of agar in PET foils

NewsLetter 57 - Changing of primary packaging material for RCS Agar Strips
(Part 2: Special Media)

NewsLetter 58 - Quantification of Neutralizing Capacity of TCI- γ

NewsLetter 59 - RCS Compressed Gas Adapter

NewsLetter 60 - Sterilization of RCS Isolator

NewsLetter 61 - Validation of storage conditions (room temperature)

NewsLetter 62 - Validation of γ -irradiation of Contact Slides

NewsLetter 63 - Extended Functionality of RCS HF by Interval Sampling

NewsLetter 64 - Detection of anaerobe Microorganisms in aerobe environments

NewsLetter 65 - Comparison of Air Samplers for Environmental Monitoring regarding ISO14698

2006

NewsLetter 66 - New Agar Strip YM (Rose Bengal)

NewsLetter 67 - Barcoding of Agar Strips

NewsLetter 68 - New CalibSo Calibration Software, Version 3.3.4

NewsLetter 69a/b - Changing of the primary packaging of Contact Slides and Validation

NewsLetter 70 - Comparison of Validation results of Air Samplers AIRIDEAL 3P and RCS High Flow

NewsLetter 71 - New USP Revision

2007

NewsLetter 72 - What is the connection between Biotest HYCON and sleep laboratories?

NewsLetter 73 - HYCON Validation Handbook, 2nd edition

NewsLetter 74 - RCS High Flow with new graphic display and wireless data communication

NewsLetter 75 - Compressed Gas Adapter and CGA Orifice Set

NewsLetter 76 - HYCON-ID System

2008 (Technical Bulletins replace NewsLetters)

TB-01-08 Proper Care and Maintenance of Batteries for RCS High Flow and RCS Plus Microbial Air Samplers

TB-02-08 Stability and Use of Biotest HYCON Contact Slides and Agar Strips up to the expiration date
